EXCLUSIVE LINE

The Wilson Exclusive Line is an unusually elegant and contemporary line of speakers. Line consists of two products: big floorstanding speakers EL-8 and bookshelf speakers EL-4

The **Wilson Exclusive Line** EL-8 is an unusually elegant and contemporary set of speakers. The slender body, luxurious piano black lacquer and exquisite craftsmanship ensure that they are an object equally fit for an elegant living room or specialist listening room. Demanding audiophiles will appreciate several details: a solid base which guarantees a solid connection for cables - speaker ports and foam port caps.

A set of **Wilson Exclusive Line** EL-8 speakers perfectly suit both open rooms while EL-4 speakers in every room where space is limited. Both speakers are very good solutions if you need them standing very close to the walls due to room size. Thanks to the precise design process, we are certain that EL-8's will better their contemporaries when tested in equal acoustic conditions.

EXCLUSIVE LINE EL-8	
Frequency response (± 3dB):	40-20.000 Hz
Sensitivity (2.83V - 1m):	90 dB
Impedance:	4-8 Ohm
Maximum SPL:	108 dB
Recommended amplifier power:	40-150 W
Crossover frequency:	2.400 Hz
Tweeter:	1" (25mm) soft dome
Low/midrange drivers	2x 6" (165 mm) with foam phase corrector
Enclosure type:	Bass Reflex
Terminals:	Banana plugs
Dimensions:	985 x 195 x 295 mm (H x W x D)
Finish:	Black, high-gloss lacquer
Weight:	13,9 kg

Highest sound quality

The high quality tweeters are equipped with soft domes. These domes increase the apparent sense of space and quantity of ‘air’ experienced, providing the type of sound stage that is sought after by audiophiles. The resolution of the acoustic detail between the midrange and the bottom of the bandwidth is pristine - this is another feature usually found in loudspeaker descriptions from a much higher price range.

Unusually rigid cones on the low-midrange drivers combined with high-frequency tweeters ensure a wonderful clarity. Cooperation between the drivers and their coherence is exceptional. This is testified by the full sound, which consists of a realistic, deep and powerful bass, accompanied by extremely fast and detailed mid tones and finally complemented by precisely tuned high frequencies. The sets are characterised by their true musicality - one of the most important factors distinguishing good speakers.

EXCLUSIVE LINE EL-4	
Frequency response (± 3dB):	50-20.000 Hz
Sensitivity (2.83V - 1m):	88 dB
Impedance:	4-8 Ohm
Maximum SPL:	105 dB
Recommended amplifier power:	25-100 W
Crossover frequency:	2.400 Hz
Tweeter:	1" (25mm) soft dome
Low/midrange drivers	5" (130 mm) with foam phase corrector
Enclosure type:	Bass Reflex
Terminals:	Banana plugs
Dimensions:	288 x 173 x 245 mm (H x W x D)
Finish:	Black, high-gloss lacquer
Weight:	3,6 kg
