

Bookshelf loudspeaker RAPTOR Mini

wilson

Raptor Mini is a bookshelf speaker made of the highest quality materials and equipped with high quality components.

Raptor Mini is a high quality product with same classic design as the rest of Raptor Series. Universal black and white colors are a guarantee of a perfect fit into any space.

Raptor Mini speaker have been designed to meet the expectations of music lovers who expect to enjoy it even during work in small home office or where the available space does not allow for bigger speaker solution.

Solid and streamlined cabinet with back firing Bass Reflex offers high efficiency in the low frequency range.

High quality housing is covered with layer of modern vinyl and has a wood-like surface finish with on the entire surface of the side, top and back walls. Front is made of high quality plastic material.

The material provides long-lasting resistance to colour change and unwanted effects of light, which is especially important for a white finish, when the speakers are placed in very sunny rooms.

Together with the available material grilles in classic black, mounted on traditional mounting pins, the entire column looks attractive and does not disturb the interior with its presence.

Cabinet: White with wood grain texture
Grille: black

FOR SMALL OFFICE OR SMALL ROOM

Raptor Mini bookshelf speaker, like the other components of the Raptor family, is a high-quality product that flexibly adapts to any interior. The classic form and small size provide a wide range of applications.

SMALLEST IN THE LINEUP

Due to its small size, it can also be a quality music accessory for home or private office workers if a small amplifier is used to power it.

GREAT FOR MICROSYSTEMS

Starting with micro/mini Hi-Fi systems, through classical home cinema systems to complex multi-channel cinema systems.
