SPEAKER CABLES

TOP QUALITY MATERIALS AND GREAT PERFORMANCE

Wilson offers only the best quality, oxygen free copper cables from recognized suppliers. We have taken care to ensure optimum performance functions as well as best-selling lengths and packaging forms.

CONVENIENT FOR HOME APPLICATIONS

Speaker cable ideal for both home theater and stereo systems. Convenient small roll should be long enough to wire typical stereo setup.

GREAT COPPER QUALITY AND CONDUITY

Conductors made of OFC copper with a high degree of purity. The strong and durable PVC insulation.

READY TO USE PRE-TERMINATED SOLUTION

Wilson speaker cables are dedicated both to stereo systems as well as Home Cinema. Ready to use right after removing from packaging.
